Four New Films Added to Phone Company List

Four new films have been added to the General Telephone Company's extensive motion picture library, according to J. M. White, Palos Verdes District Manager.

The four include "Four Seasons West," a half-hour color film on the history of the cattle business in South Dakota over the past 150 years; "Rack 'em Up," a 10-minute black-and-white film on the subject of billiards; and "America Bowls at the ABC" and "Let's Roll with Champions," two short films on bowling.

THESE FILMS and others

are available to civic groups, service clubs and similar organizations, free of charge, by writing or calling direct the nearest district office of the General Telephone Co.

The film library contains nearly 250 titles on a wide variety of subjects, with several copies of each. Most of the titles are listed in a 39-page booklet published by General Telephone and issued without charge, upon request.

"Four Seasons West" was produced by the South Dakota Stockgrowers Assn. It depicts the stirring saga of the state's largest industry, cattle

raising.

"LET'S ROLL With Champions" is narrated by Bill Stern and explains the basic fundamentals of bowling, with tips on how to improve your game.

"Rack 'em Up" describes the basic techniques of billiard playing and demonstrates some amazing trick shots.

"America Bowls at the ABC" is another short film touching on the major aspects of the American Bowling Congress. Shown are some of the stars of the game bowling in competition.

Torrance National Guardsmen to Leave Saturday for Training

When convoys of military vehicles bearing more than 7500 National Guardsmen begin rolling out of their hometown armories in 50 Southland communities shortly after midnight, Saturday, members of Torrance's Company E, 132nd Engr Battalion will be among them.

The 1200 officers and men of the 40th Combat Command B have already completed their training at Fort Irwin, desert armored training center

near Barstow, from July 22 through Aug. 5.

SATURDAY'S movement will be made by the two other Combat Commands, A and C, and the rest of the division. Combat Command C's 1500 men will go to Fort Irwin, and the remaining elements, headquarters, special units, and supporting organizations, will use the famed World War II training site, Camp Roberts, near Paso Robles. The two week annual encampment goes through Sept. 3.

Division artillery will utilize the Hunter Liggett Military Reservation near Camp Roberts for its training.

MAJOR GENERAL Charles C. Ott, Jr., division commander, said the troop movement will start shortly after midnight, Saturday, and will be completed by 2:30 p.m. Sunday, Aug. 20.

GOP Rally Arrangements Completed

Congressman Alphonzo E. Bell, who will campaign for re-election in the new 28th Congressional District, has been named to introduce Senator Barry Goldwater (R-Ariz.) when he speaks at the huge South Bay Republican Rally, Aug. 22, at 8 p.m. at El Camino College Stadium.

Bell, who now represents the 16th District, will pick up the 46th Assembly District in his new district which includes all of the South Bay "beach cities" and Palos Verdes Estates.

FINAL arrangements for the rally are being made by the sponsoring organization, the South Bay Young Republican Club. Club President James S. Murphy said today: "When we first asked Senator Goldwater last January, to come to the South Bay to speak on Aug. 22, we had no idea that the event would grow to the proportions it has reached today."

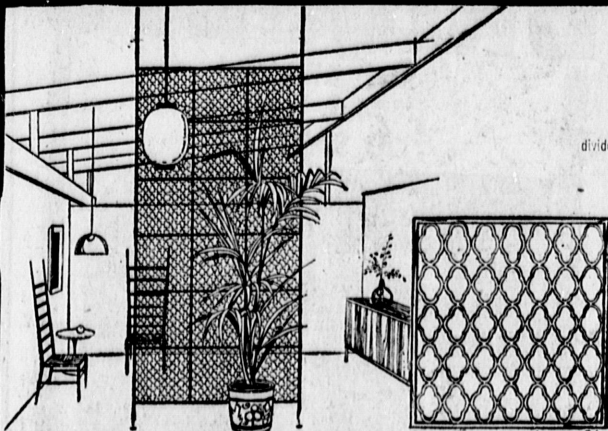

"We understand," Murphy added, "that there will be bus caravans coming from Orange County and the San Fernando Valley areas. We are making preparations to accommodate an overflow audience."

MURPHY noted that already nearly 5000 tickets for the 7000 seat stadium have been sold. Seats are on a first-come-first-served basis and ticket information can be obtained by phoning OS 5-4771.

Senator Goldwater will be in California for a visit with his daughter who resides in Torrance.

Butter production in America in 1960 was 1479 billion pounds, and in Russia butter production was 1870 billion pounds.

WHAT'S DOING

R. S. Pyle, your Telephone Manager in Torrance

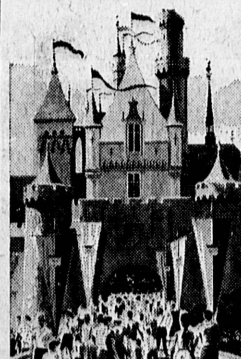

This is the Army's Nike Zeus, the only free world missile now being developed to hunt down and destroy enemy Intercontinental Ballistic Missiles.

The eyes of Nike Zeus will be powerful ground radars that scan the skies. Its brain will be a computer that takes information supplied by radar and guides Nike Zeus to its fast-moving target.

Prime contractor for the Nike Zeus system is Western Electric, manufacturing arm of the Bell Telephone System. Bell Telephone Laboratories directs its design and development. This is one of the many

ways telephone people help keep the nation ready to defend itself.

One of Disneyland's spectacular attractions is the Circarama tour of "America the Beautiful." For you're encircled by 11 screens as the unique movie takes you to Times Square, a New England village, the Grand Canyon and many other parts of our land. The effect is breathtaking.

Circarama was developed by Walt Disney Productions and is part of an exhibit sponsored by Pacific Telephone and the Bell Telephone System.

It's free... if you

visit Disneyland, be sure you see it.

Keeping your telephone ready to operate around the clock is one of our most important jobs.

To do this, a constant supply of electricity is needed. Big batteries like these supply the electricity. We keep them charged with generators which operate on commercial power.

If disaster strikes at outside power sources, the batteries can provide electricity to keep your phone operating for several hours. In addition, we have stand-by generators that can provide service indefinitely, if necessary.

Planning ahead so your phone calls will go through — is another way telephone people work to serve you better.
